- Compatible with Browning Buck Watch Timelapse Viewer Software

“Browning Trail Cameras are the most dependable trail cameras available. I got my first Browning Strike Force in 2013 and it’s still going strong today.”

**DEREK DIRNBERGER**

Browning Trail Cameras Brand Ambassador and Chief Hunter at “The Break” (Pursuit Channel)

## STRIKE FORCE EXTREME

The 2018 Strike Force Extreme cameras feature an incredible 0.4 second trigger speed and 0.6 second recovery time between pictures. Experience high end performance with 16 MP picture quality, and a new video processor that produces incredible quality 1280 x 720 HD video clips with sound. The Strike Force Extreme camera also takes night pictures using our **“Zero Blur” technology** which eliminates motion blur from game in your pictures at a range of 100 ft. at night. Other features include SD card management options, and Smart IR video which continues to record video during the day when game is present. The new adjustable trigger speed feature allows you to select the trigger speed that is right for your camera location. The Strike Force Extreme is also compatible with up to 512 GB SDXC memory cards.

Model# BTC-5HDX

## Camera Features

- 16 MP

"I'm lucky enough to get to hunt with my closest friends in a couple of different states every year and I can't be in all of those states at the same time, so I need great cameras to help us scout and be successful...and we choose Browning Trail Cameras!"

**CARL DRAKE**

Browning Trail Cameras Brand Ambassador and Team Hunter at "The Break" (Pursuit Channel)

## STRIKE FORCE PRO XD

The most feature rich camera in the Strike Force line up is the Strike Force Pro XD. Our flagship Strike Force model features **"Dual Camera Lens Technology"**. We have developed a custom tuned daytime camera lens to produce razor sharp daytime images, while the dedicated night camera lens takes incredibly clear nighttime images. The Strike Force Pro XD also features a lightning fast 0.15 second trigger speed and an 80 ft. motion detection range. Other features include an all-steel adjustable tree mount bracket, Timelapse capability and captures 1080p Full HD video with sound. The Strike Force Pro XD is also compatible with up to 512 GB SDXC memory cards.

Model# BTC-5PXD

- Programmable Picture Delay (1 sec. - 60 min.)
- Compatible with Browning Buck Watch Timelapse Viewer Software
- 1/4" -20 Tripod Socket

“There are a lot of reasons to choose Browning Trail Cameras over any other trail camera including low cost, battery life, and picture quality, but for me, it’s the simplicity of setup. The menu is easy to navigate and the viewing screen in select models takes all the guesswork out of positioning the camera. Browning Trail Cameras are the Best There Is.”

**JEREMY MILLS**

Browning Trail Cameras Brand Ambassador and Team Hunter at “The Break” (Pursuit Channel)

**DARK OPS EXTREME**

For the best covert trail camera in the smallest case size, look no further than the 2018 Dark Ops Extreme cameras from Browning. These cameras feature an **invisible infrared flash** to ensure game or trespassers on your property do not detect the camera while it is capturing images or videos. The Sub Micro case size packs all the performance you would expect with 16 MP picture quality, **1280 x 720 HD videos with sound**, lightning fast 0.4 - 0.7 second adjustable trigger speeds, and superior battery life. Additional features include SD card management options and Smart IR video to keep recording game during the daytime. The Dark Ops Extreme also features a battery meter that is compatible with Alkaline and Lithium batteries.

**Model# BTC-6HDX**

Model# BTC-100

"Between having young children and a busy competitive archery season, we don't always have a lot of time for scouting. So our cameras have to come through for us and be our eyes and ears in the woods when we can't be there...and we can always count on Browning Trail Cameras to do the job!"

### SAMANTHA MORGAN

Browning Trail Camera Ambassador and Host at "Bow Life" (Sportsman Channel)

MANAGE WITH  
BROWNING TRAIL  
CAMERAS APP

## POWER PACK

### Model# BTC-XB

Our Trail Camera Power Pack will extend the battery life of your Browning Trail Camera in the field. This micro sized battery pack holds 8 AA batteries in the same easy to use battery tray used in the trail cameras. Other features include a built in battery tester and a twist lock plug to lock the power adapter to your Browning Trail Camera. Not compatible with Defender camera series. (batteries not included)

### Model# BTC-SB

## SECURITY BOX

Our camera security box has been designed to ensure your trail camera stays where you put it. The all steel construction ensures maximum protection in the field. The added feature of the camouflage exterior makes your camera nearly impossible to detect in the woods. The security box can be locked using a standard padlock or a Master Lock Python cable (not included). Not compatible with Defender camera models.

## PICTURE AND VIDEO VIEWER

The new Browning picture and video viewer was designed for the hunter with multiple cameras in the field. The viewer features a 7" HD viewing screen and a built in rechargeable battery to create an affordable way to view your images and videos in the field without the need for a laptop computer. The viewer allows you to view images or videos right in the field, as well as copy SD cards from multiple cameras directly to a dedicated SD card slot. (SD cards not included)

### Model# BTC-VWR

As more and more hunters travel further and further to hunt new states and get into camp with friends and relatives from around the country, Browning Trail Cameras wondered "how can we help make this a better experience for these hunters?" And we came up with our External Power Pack that allows users to connect it to their Browning Trail Cameras and prolong the amazing battery life even more by adding the power of 8 more AA batteries to their set-up! So when hunters get into to camp, they can rest easy knowing that they had the extra battery life needed to not miss a thing!"

## THE TEAM AT BROWNING TRAIL CAMERAS

## TREE MOUNT

### Model# BTC-TM

The camera tree mount is the perfect accessory to aid in the placement of your trail cameras. You can now mount your trail cameras to that crooked tree and position the camera perfectly using the built-in gimbal mount. The all-steel construction ensures there are no plastic pieces to break in the field. The tree mount attaches via a 1/4" -20 threaded insert located in the bottom of most Browning Trail Cameras. Not compatible with Defender camera models.

## SD CARDS

For maximum trail camera performance, we recommend using Browning brand SD cards in your trail cameras. All of our SD cards are SDHC class 10, ensuring the fastest write speeds for high-resolution photos and HD video clips. Our cards are available in 8, 16, and 32GB capacities.

- 8GB Model# BTC-8GSD
- 16GB Model# BTC-16GSD
- 32GB Model# BTC-32GSD

## BATTERIES

Our trail camera batteries have been designed to meet the rigorous demands of today's trail cameras. We know that trail cameras are expected to perform across a wide spectrum of temperature extremes and other environmental stresses. Browning batteries are up to the challenge. Our Alkaline batteries are packed 8 AA per pack and are mercury and cadmium free.

### Model# BTC-8AA

Some of the most overlooked factors in trail camera performance are SD cards and batteries. But Browning Trail Cameras has got you covered! By designing SD cards and batteries to optimize the performance of your Browning Trail Cameras you can trust that you are getting the best out of your cameras!
