The Command Ops series of cameras deliver big performance in a small package. The crisp 14MP picture resolution ensures the very best quality pictures of your game, day or night. With fast 0.67 second trigger speeds, you are sure to capture anything that steps out in front of your camera. The Command Ops series also features 720p HD video with sound, to capture the best video of game on your property.

# TRAIL CAMERA ACCESSORIES

## PICTURE AND VIDEO VIEWER - *Model# BTC-VWR*

The new Browning picture and video viewer was designed for the hunter with multiple cameras in the field. The viewer features a 7" HD viewing screen and a built in rechargeable battery to create an affordable way to view your images and videos in the field without the need for a laptop computer. The viewer allows you to view images or videos right in the field, as well as copy SD cards from multiple cameras directly to a dedicated SD card slot. (SD cards not included)

## TRAIL CAMERA POWER PACK - *Model# BTC-XB*

Our Trail Camera Power Pack will extend the battery life of your Browning Trail Camera in the field. This micro sized battery pack holds 8 AA batteries in the same easy to use battery tray used in the trail cameras. Other features include a built in battery tester and a twist lock plug to lock the power adapter to your Browning Trail Camera. (batteries not included)

# TRAIL CAMERA ACCESSORIES

## SECURITY BOX - Model# BTC-SB

Our camera security box has been designed to ensure your trail camera stays where you put it. The all steel construction ensures maximum protection in the field. The added feature of the camouflage exterior makes your camera nearly impossible to detect in the woods. The security box can be locked using a standard padlock or a Master Lock Python cable (not included).

## TREE MOUNT - Model# BTC-TM

The camera tree mount is the perfect accessory to aid in the placement of your trail cameras. You can now mount your trail cameras to that crooked tree and position the camera perfectly using the built in gimbal mount. The all steel construction ensures there are no plastic pieces to break in the field. The tree mount attaches via a 1/4" -20 threaded insert located in the bottom of most Browning Trail Camera models.

## SD CARDS -

4GB # BTC-4GSD 8GB # BTC-8GSD  
16GB # BTC-16GSD 32GB # BTC-32GSD  
64GB # BTC-64GSD

For maximum trail camera performance, we recommend using Browning brand SD cards in your trail cameras. All of our SD cards are SDHC class 10, ensuring the fastest write speeds for high resolution photos and HD video clips. Our cards are available in 4, 8, 16, 32 and 64GB capacities.

## BATTERIES - Model# BTC-8AA

Our trail camera batteries have been designed to meet the rigorous demands of today's trail cameras. We know that trail cameras are expected to perform across a wide spectrum of temperature extremes and other environmental stresses. Browning batteries are up to the challenge. Our Alkaline batteries are packed 8 AA per pack and are mercury and cadmium free.
